```
# Curriculum Vitae

## Craig “Craole” Cole
**Software Engineer · Data/Backend · L&D Specialist · TEFL Educator · Artist**

- Location: Jamaica (remote-friendly)
- Website: https://craole.cc
- Email: info@craole.cc
- Focus: Rust systems, data pipelines, backend services

---

## Summary
From frontend interfaces to backend pipelines to command-line tools, I build across the full stack with a st

---

## Core Skills
- **Rust**: services, async, tooling, performance-first design
- **Backend**: APIs, persistence, data modeling, reliability
- **Data**: pipelines, SQL, analytics-oriented systems, dashboards
- **BI / Analytics**: Power BI, Tableau, data-driven decision support
- **Teaching**: curriculum design, training programs, mentoring

---

## Experience

### Data/Backend Developer (Building Portfolio) — *2024–Present*
- Building modern data pipelines with Rust and Delta Lake
- Exploring graph databases and advanced SQL patterns
- Designing backend systems for data analytics

### Learning & Development Specialist — *8+ years*
- Built training programs and analytics dashboards
- Specialized in Power BI and Tableau for business intelligence
- Managed data-driven decision making processes

### TEFL Tutor — *3 years*
- Teaching professionals and students English communication
- Developing custom learning materials and curricula

---

## Selected Projects
- **Full-Stack Portfolio (Leptos + Axum + SQLite)** — this site
  A Rust-powered portfolio showcasing full-stack development with SSR/hydration and a simple content system.

- **Data Pipeline System (Rust + Delta Lake)**
  Exploring high-performance ingestion and transformation patterns.

- **Graph Analytics Platform (Neo4j + Cypher)**
  Modeling complex relationships and analytics over connected datasets.

---

## Creative Work
- Music production (bassist/singer/producer)
- Photography and visual storytelling

---

## Notes
This CV is stored as a post in the site database (`kind = cv`) so it can be rendered alongside blog entries.
